

Triketan M-330 E-Trike

Experience the future of electric mobility with the UL 2849 Certified Triketan M-330. Effortlessly navigate with 7 PAS levels and enjoy unmatched style and performance in every ride.

The 48V*20Ah high-capacity battery delivers ample power boasting a range of up to 85 miles.

The torque sensor provides extra power when you need, making the Addmotor electric trike easy to conquer hills and inclines.

The Triketan M-330 E-Trike is designed with safety in mind, featuring reliable brakes for secure stopping on any terrain. Its advanced rear differential ensures smooth and stable turns.
