

## **Hiboy C1 14” Folding E-Bike Manufacturer Specifications**

- The Hiboy C1 electric bicycle is made of high-carbon steel. The bicycle is not only easy to carry but also performs well. The e-bike features a powerful 350W motor and a 36V 7.8Ah battery, which allows the rider to travel up to 21.7 miles □Pedal-assist maximum driving range 43.5 miles□ on a single charge with a top speed of 20 mph.
- This electric bike offers three riding modes for you to choose from. The clear display shows key information such as speed, riding mode, lights, range, and battery life.
- Bright front lights, tail lights, and front fork reflective sheet, coupled with a dual disc brake system, ensure your riding safety to the greatest extent.
- Foldable Design□The 14-inch small electric bike is perfect for urban commuters. And for easy storage, the foldable handlebar design makes it easy to store in a small apartment, office, or even in the trunk of a car.
- Smart APP□Simply connect the Hiboy App via Bluetooth to lock your scooter, change the speed mode, and adjust the speed unit. It works on iPhone and Android smartphones.
- The warranty period for different parts is either 12 months or 6 months.
