

Product Description:

The Hiboy EX9 Electric Bike for Adults offers an exceptional blend of power, comfort, and style for both commuting and recreational use. Powered by a 750W motor, this e-bike allows you to reach speeds up to 28 MPH and travel up to 62 miles on a single charge.

The 26" aluminum frame, equipped with an 80mm front suspension fork and 26x2.5" tires, ensures a smooth, comfortable ride over various surfaces, whether you're navigating city streets or taking a scenic ride through the park. With 4 riding modes, including electric mode, pedal-assist, pure bike mode, and walking assist, the Hiboy EX9 adapts to your riding preferences. The Shimano 7-speed system and dual disc brakes provide reliable control and smooth shifting, while the adjustable seat and handlebar allow for a customized fit.

Safety is prioritized with a bright front headlight and rear brake light, while the bike's sturdy design supports riders up to 330 lbs. Available in blue and dark gray, the Hiboy EX9 is an ideal choice for adults seeking freedom on two wheels. UL2849 certified for peace of mind, this e-bike provides a cost-effective, eco-friendly alternative to traditional transportation.
