

Hiboy EX6F Manufacturers Overview

Meet the all-new **EX6F Folding Electric Bik** - an upgraded take on the EX6, built for enhanced comfort, smarter portability, and a more inclusive fit.

Featuring a UL 2849-certified **48V 14.5Ah battery**, the EX6F delivers up to **75 miles of range**, powered by a **500w motor** that handles city streets and hills with ease.

The **low-step frame (15.7")**, adjustable **handlebar (44.5"–52.76")**, and **seat height (33.66"–41.14")** make it perfect for riders from **4'9" to 6'5"**. Thanks to its **3-point folding system** and **removable battery**, it's ideal for compact storage or travel.

Add in **20×4.0" fat tires**, a **hydraulic front suspension fork**, and a **rear rack supporting up to 110 lbs**, and the EX6F is ready to go the distance - fold, grab, and go anywhere life takes you.
